## President's Report

In October, Ben Layton of the Tennessee Wildlife Resource Agency and Josh Cox of the Wildlife Services spoke to the residents about the wild Boar invasion here in the cove. We need to map the locations the Boars are sighted along with the time and number seen. If residents can email that information to the Welcome Center, we can keep a list to see exactly what we are dealing with. Then, go from there with the Wildlife services. Also, one point that was made was not to put poison out to get rid of them. If poison were to be put out, other wildlife or possibly house pets could get into it. The meeting was live streamed on the Bulletin Board for those people who were unable to attend could watch.

A budget workshop was held with the new Board and the Budget Committee to go over next year's budget.

The Veterans Day program was held on November 11 and was well attended by the residents. Two residents that we lost this year were recognized; Larry Drysdale and Gene Sarazen.

The agenda, financials, and committee reports can be found on the POA website.
