

Notice from the National Fire Protection Association  
March 2018

On behalf of the entire team at the National Fire Protection Association, we congratulate Cumberland Cove on achieving fifteen-years of continuous participation in the national Firewise USA™ recognition program!

The resident's long-term commitment to reducing its wildfire risks and their continuous completion of the program's annual renewal requirements is a significant accomplishment. We're extremely proud to have you as an important and valued part of the national program's close to 1,500 recognized sites throughout 42 states. We look forward to hearing about your wildfire mitigation accomplishments for many more years to come.

To commemorate this important achievement, customized street signage is being developed for your site and will be delivered in approximately six weeks.

Please extend our thanks and appreciation to the residents for their continued efforts to prepare their homes and landscapes for wildfires; which ultimately increases safety for both residents and firefighters.

Sincerely,

Cathy
