

4-Ft. Recycled Plastic Traditional Bench \$265.00

This 4-ft bench is a reminder of traditional wooden park benches, but is constructed from modern recycled plastic, providing incredible durability, weather resistance, and low maintenance.

The color is molded into the plastic, eliminating the need to ever paint or stain. UV stabilizers are molded right in to prevent UV degradation. Because the material is non-porous, it's unaffected by water-meaning it won't rot or rust!

Your 100% recycled plastic park bench will give you many years of pleasure and pride, knowing that you did your part in keeping plastic waste out of landfills and protecting our environment. When you want an outstanding no-maintenance product that will give you the benefits you're looking for-look no further!

The Traditional Bench comes with a choice of legs colors and 3 colors for bench slats. This item is available in portable mount only.

Note: All hardware is made from stainless steel for added durability.
